

3R MANAGEMENT SUITE

(Recruitment, Retention and Retirement)

Let our friendly step-by-step wizard walk you through the entire payroll processing procedure from start to finish, including the generation of electronic pay stubs and handling direct deposit or printing checks in our 3R Management Suite.

- Complete time approval in real time as the pay period occurs because our 3R Management Suite is seamlessly integrated with Scheduling and Attendance allowing the payroll process to become a non-event.
- Have multiple facilities? No problem, you can pay multiple facilities and create all banking transactions at once, greatly reducing the steps of payroll processing.

> PRODUCT BENEFITS:

- Payroll workflow is independent of payroll schedule allowing deduction changes, wage maintenance, and even benefit start and end to be completed with dated entries and the system takes care of it for you. Even maintain those values for future payrolls while processing your current payroll.
- Support complete compliance with tax tables that are automatically updated.
- Experience audit reporting and robust flexible business reporting capabilities for key performance indicator support.
- Distribute the employee portal for self-service earnings remittances and tax forms.

> PRODUCT EXPERIENCE:

- Payroll is prepared instantly with the click of a button
- Generate detailed electronic pay stubs for each employee that can be securely viewed online or printed out at anytime.
- Inputs from various sources can be automated, making deductions such as Point of Sale for Gift Shop, Dietary, Uniforms and Union Dues more easily incorporated into the payroll run.
- Generate a variety of tax and other government reports, such as Forms W2, W3, 940, 941 and 1099.
- Correct a historical payroll and the system generates calculations for the entire impact of changes bringing it forward to the current payroll.
