3R MANAGEMENT SUITE (Recruitment, Retention and Retirement)

Managing staff and schedules is a complex and time consuming process. The 3R Management Suite allows you to automate simple or even complex, multi-week, rotating schedules and never generate them manually again. Features also include an easy-to-use interface that employees can even utilize to access their schedule from any web browser.

- Powerful scheduling functionality allows triggers for typical scheduling exceptions such as early departures or late arrivals.
- Schedules can be created manually or automated to fit your organization's specific needs.

> PRODUCT BENEFITS:

- Easy and flexible scheduling solutions whether you need to schedule 2 employees or 200.
- Automation of simple or complex multi-week rotating schedules.
- Allows employee requests for schedule changes to ease process of covering open shifts by providing interested employees for selection.
- Synchronization of employee schedules available to mobile devices.

> PRODUCT EXPERIENCE:

- Employees may submit schedule requests such as vacation or personal time off directly within the 3R Management Suite, eliminating time consuming miscommunication issues.
- Scheduling requests can be configured to go through multiple levels of hierarchical authorization.
- Managers and authorized employees can securely modify employee schedules from anywhere, anytime.
- All your employees will have 365/24/7 access to our complete 3R Management Suite functionality.
