## 3R MANAGEMENT SUITE

(Recruitment, Retention and Retirement)

Track and monitor employee attendance accurately in real time from anywhere in the world. With the 3R Management Suite we offer different ways to track employee attendance that fits any company or budget. Managing employee time and attendance is difficult. Our 3R Management Suite makes it easy with workforce automation.

- Automate Time and Attendance with Rule Based policies.
- Rules can be automatically applied to groups of employees or specific situations to automate all calculations, including overtime, premiums, accruals and even multiple pay rates. No more errors due to manual calculations!

### > PRODUCT BENEFITS:

- Managers can remotely monitor and get up-to-the-second reports regarding employee time and attendance from anywhere at anytime.
- Employees can see their own accrual balances, eliminating time consuming requests for human resources to search for that information.
- Management has fine grained control and tracking over where employees are able to punch in/out.
- Transforms virtually any Android or Apple tablet/ phone into easy-to-use biometric facial recognition timeclocks. Employees can clock in/out within seconds, completely hands-free.

### > PRODUCT EXPERIENCE:

- Utilize multiple TimeClock Methods:
  - Computer Web Browsers (PC/MAC)
  - Biometric Facial Recognition TimeClocks
  - Mobile App (iOS/Android)
- True real-time TimeSheets eliminate waiting until the end of the pay period to review attendance records.
- Accruals and Time Banks allow setup for an unlimited number of accruals to automatically track employee vacations, sick days or banked time.
