

Why Choose AHT Cloud Services?

- Affordable
- Predictable
- Scalable
- Reliable

“We run our business 100% in the cloud, and the transition of the AHT app to the AHT cloud was among the smoothest of my career.”

Our performance with AHT is now three times the speed of our previous solution, helping our team achieve new levels of productivity.”

Stacia Rockwood
IT Director
Harbor Retirement

AHT Cloud Services

You take care of residents; we'll take care of your American HealthTech solution.

Simply log in, get to work, and take comfort that behind the scenes, your American HealthTech solution is being managed by experts.

Features	Benefits
Predictable, Monthly Operating Expenditure	Eliminate capital expenditures and labor to manage servers and instead convert both to a small, predictable monthly operating expense
No More Maintenance Headaches	Take comfort that behind the scenes, the latest server technologies are putting power behind your team's performance. Server upgrade costs are eliminated.
99.9% Uptime	Guaranteed uptime performance provided you have a reliable internet service
Security and Automatic Backup	Rest easy knowing your data is regularly backed up and constantly monitored by CCTV plus onsite guards in a world-class data center meeting SSAE 16 (formerly SAS70 Type II)
Updates on Your Terms	Choose a maintenance window that's best for your organization, and always know you're running the latest version of American HealthTech solutions offering all the latest features
Easily Scalable	Add and subtract authorized devices without a new contract
Biometric Authentication	Add secure access to your American HealthTech solutions with biometric authentication
Live Support	Talk to a live support specialist 24/7 with hosting-related questions and concerns
Unrestricted Data Access	Maintain access to your data—one of your most strategic corporate assets—for business performance improvement reporting
Anywhere, Anytime Access	User can log into American HealthTech solutions from anywhere, at any time, with a secure internet connection using a supported device
One Stop Shopping for Additional Services	Take advantage of additional services like network verification as well as wireless design, installation and certification
